Subject: New Hitachi Genuine 2K paint

Dear Dealer,

Technology is constantly evolving, this also applies to our Genuine paint. Our factory in Amsterdam has change the paint system now to a newer better and more environmentally friendly system, logically from aftersales we will follow this development, so we will phase out the current paint system and will replace it with the new system, for both 1, 5 and 20 Liter cans and the 2K spray cans.

From a colour point of nothing will change but a 2K paint system consists of paint, thinner and hardener so if you order the new paint you also need to order the corresponding new hardener and thinner.

At the same time we also changed the label of the Touch-up spray cans so they are in line with the new design.

Current system	New system
